

The steps for MyFreeDoctor:

- 1) Download the Medici App.
- 2) Create your Profile.
- 3) Input your Credit Card info under your Profile, because they will ask you how much you want to donate after your appointment.
- 4) Then you touch the MyFreeDoctor Check-In in the upper left corner (on the Home page of the app) and then click on the green Message button in the lower right corner.
- 5) Send a message that you would like a Rx for Ivermectin and HCQ for the Pre-Covid Cocktail Protocol.
- 6) You will be sent a questionnaire with 10 questions. Reply back with your answers. (A MD responded back to me via chat in the app within a half hour after my questionnaire reply! :)
- 7) A medical doctor will ask you via chat in the app anymore questions as needed, and send you a copy of the e-Rx (that was sent to your pharmacy) and detailed info on the protocol and info about getting a coupon from GoodRx to help pay for your Ivermectin and HCQ Rx if needed.
- 8) Make a donation anywhere from \$0-\$100, they turn nobody away for lack of funds.
- 9) Rate the MD for his/her service.
- 10) Get a coupon from GoodRx after downloading the GoodRx app.
- 11) Pick up your Rx from the local pharmacy that you indicated in your Profile.
